LADIES BUST FRANZ HAGENAUER WERKSTATTE HAGENAUER CA. 1970

Ladies bust with necklace and enamelled lips,
Franz Hagenauer, Werkstatte Hagenauer Vienna,
ca. 1970, brass chased and polished, marked

This particularly elaborately crafted bust is based on an impressive design by Franz Hagenauer.
In characteristic manner for the works of the Viennese master, the bust of the elegant lady is made in an extremely reduced way. The face works entirely without the execution of facial features. Only the lovely lips, which shine in red enamel, contrast with this austere composition. Her stylized hair swings dynamically around the neck in three strands. The fine lady is also adorned with a magnificent pearl necklace, which she wears around her neck.

Once again, Franz Hagenauer demonstrated his extraordinary genius and sense for shapes and proportions.
