

**CANDELABRUM JOSEF
HOFFMANN WIENER
WERKSTATTE CA. 1928**

€46.000,00

Candelabrum, Josef Hoffmann, Wiener
Werkstatte, ca. 1928, silver

During the production time of the Wiener Werkstatte, Josef Hoffmann and his designs provided a constant evolution of the "Wiener Stil". This candelabrum also shows the genius of Josef Hoffmann with its light and elegant appearance and the slight indication of a floral shape. It was crafted between 1928 and 1930, and the design was also executed in a version with eight arms. Each arm is marked with the Austrian tax mark for 925 silver. Another remarkable fact is the perfect craftsmanship of the very small and technically highly complicated hammer stroke decoration. The execution with only five arms seems to be unique as the only other examples of this particular design show six or eight arms.
