

HORSE CANDLESTICK KARL HAGENAUER CA. 1925

Horse candlestick "Pferdleuchter", design by Karl
Hagenauer, execution by Werkstätte Hagenauer
Wien, ca. 1925, brass, cast, marked

Horses played a central role in the work of both Franz and Karl Hagenauer. In this design, curved lines converge to form an elegantly stylized horse, capturing the playful and humorous spirit characteristic of many 1920s designs.

Crafted from premium brass—a material prized for its durability and warm, golden hue—this candlestick seamlessly combines artistic embellishment with functional design, embodying both masterful craftsmanship and the refined aesthetic of Werkstätte Hagenauer.
