

**HUNTING SCENE WITH
HORSEWOMAN FRANZ
HAGENAUER CA. 1937**

€7.800,00

Hunting scene with horsewoman and two hunting dogs, design Franz Hagenauer, Werkstatte Hagenauer Vienna, circa 1937, brass patinated, marked

In 1937 Franz Hagenauer designed a multi-figure equestrian sculpture with horsemen and hounds. Single figures from that group were sold as smaller hunting scenes, like this elegant horsewoman, sitting in a side-saddle, while the hunting dogs excitedly prance around her horse. One of the hounds has already taken up the scent and drives the hunt up the slope. Franz Hagenauer has designed this hunting scene with great attention to detail. The animals appear elegant and playful at the same time, while the rising wooden base gives the par force hunt additional dynamism.
