

**CARL AUBOCK TILT LAMP NO.
3740**

€5.000,00

tilting floor lamp, Carl Auböck, workshop Carl
Auböck, ca. 1940, model No. 3740 "X", bamboo
with cross base

Carl Auböck had one goal: innovative design. This lamp's base is heavy enough to allow it to tilt sideways, to shine the light where needed; the lampshade automatically balances itself to the new angle. A design classic in its earliest execution, with wavy bamboo. Later executions are made of different exotic wood. The craftsmanship is of highest quality, the brass worked extremely well and the condition is excellent. The shade has been renewed.
