

**LOETZ VASE CRETA PAMPAS
CA. 1899**

€1.800,00

Vase, Johann Loetz Witwe, decor Creta Pampas,
ca. 1899

The Loetz goblet-shaped vase captivates primarily with its vibrant coloration. Against a green Creta ground, an irregularly spun net-like décor overlays an opaque silver-yellow powder fusion. The iridescence shimmers in a mesmerizing blue, creating a striking contrast with the green Creta glass, which emerges as an organic pattern between the silvery shimmer.

The combination of rich green and luminous blue tones gives the vase its exceptional radiance, making it a remarkable example of Loetz's innovative Art Nouveau glass artistry.
