LOETZ VASE PG 3/430 CA. 1902

Vase, Johann Loetz Witwe, decor Phenomen Genre 3/430, ca. 1902

The decor Phenomenon Genre 3/430 was designed in 1903. In the books of Ploil and Prestel this decor variant is described as a "very complex motif with inlaid eyes". Apart from its complexity, this decor is particularly characterized by its use in the designs of very famous creatives and is one of the most beautiful decors from Loetz of this period. The blue "eyes" on the "metallic red" ground are highly iridescent and show rich, iridescent colors.
