Vase, Johann Loetz Witwe, decor Tricolor
Phenomen Genre 299, ca. 1900, signed

This stunning Loetz vase impresses with its colorful appearance. The Tricolor decor is particularly well accentuated on the bulbously shaped body of the vase. The interplay of pale pink, blue and yellow harmonizes with the fused silver oxide flakes. The quadruple indentations on the top rim add even more dynamic to the form. The four wave-like curved lips skillfully complete the composition. Also to be noted is the "Loetz Austria" signature, which is located on the accurately polished pontil.
