

**LOETZ VASE WITH
MOUNTING PG 85/3890 CA.
1902**

€21.000,00

Large vase with brass mounting, design from Hubert Gessner and decor Jutta Sika, execution Johann Loetz Witwe for E. Bakalowits, decor opal Phenomen Genre 85/3890, circa 1902

The mounted vase is a wonderful example for collaborations of Viennese designers and manufactories around 1900. Special feature is its exotic and elaborate brass mounting. The evenly spun metallic decoration on a translucent ground combined with the harmonious drawing is impressive as well.

The vase's shape and presumably also its metal mount has been designed by Hubert Gessner, whereas Jutta Sika contributed its decor. Both, Gessner and Sika, were talented students of Koloman Moser at Vienna School of Arts and Crafts. The glass body was manufactured by Johann Loetz Witwe on behalf of famous Viennese glass editor E. Bakalowits, Sohne.
