

TABLE MIRROR FRANZ HAGENAUER CA. 1960

€14.500,00

Art deco table mirror, design Franz Hagenauer,
Werkstatte Hagenauer Vienna, ca. 1960, brass
nickel-plated, unique piece, marked

Franz Hagenauer most probably designed this rare table mirror specifically for the American market. The stand is adorned with a stylized skyline, with skyscrapers on the left and right side, like a Manhattan street canyon, opening the view far upwards. The silhouette with its jagged and stepped elements can be interpreted as an homage to New York's Chrysler Building. Like no other skyscraper from the 1930s, this iconic building with its Art déco façade has become the epitome of modern American architecture.

Unmistakably in the style of American Art déco, this unique piece has found its way back to Europe from an important American private collection. With its focus on Werkstatte Hagenauer in the assortment, Kunsthandel Nikolaus Kolhammer is particularly proud to offer this beautiful table mirror.
